

# Explore it

## Children's feedback

We would really value any children's voices which can help us improve *Explore it*.

Please send in your group's ideas and suggestions to:  
[childrenyouthmaildrop@salvationarmy.org.uk](mailto:childrenyouthmaildrop@salvationarmy.org.uk) with the email subject 'Explore it Feedback'.

Thank you so much for your help.

You will know how best to engage your group, but here are a couple of suggestions:

### The big debate!

Give the children a cut-out list of the different elements of your session and ask them to put them in order of preference with their favourite at the top. For example, game/singing/prayer etc.

This will need a group leader to facilitate as they work together to find an order that they're mostly happy to agree with. A photo can then be taken and sent in.

If there are lots of other strong opinions, it would be great if this could be included in the email.

### Choices

Pair up the different elements of your session eg 'Bible reading or video' and ask the children to stand in the middle of the space. Give them the option of either one or the other and ask them to run to the side of the option they like most. Repeat several times, with different combinations.

It would be helpful to have a note of numbers of children for each choice they make. eg 5/7 children chose craft.
