

COLOURING CORNER

PLANETS COLOURING

Besides Earth, there are seven other planets in our solar system – Mercury, Venus, Mars, Jupiter, Saturn, Uranus and Neptune. Normally it would be very hard (or even impossible) to see these planets from Earth, but this Friday (28 February) we'll hopefully be able to spot all seven planets in the night sky! To celebrate this brilliant opportunity to see seven planets all at once, add a splash of colour to the design below. If you'd like to share your artwork with other readers, email your colouring to: kidsalive@salvationarmy.org.uk.

Make sure you write 'Planet Colouring' in the subject box and give us your full name, age and address. Alternatively you can post your colouring to: Your Space, *Kids Alive!* 1 Champion Park, London SE5 8FJ.

One last reminder, if you're sending by post remember to fill in the details below so we know who you are. We send a gift to everyone whose colouring we publish, so don't miss out!
