

## Start the trail here...

Let's go on a space adventure! Zoom around our solar system to find planets, stars and more!

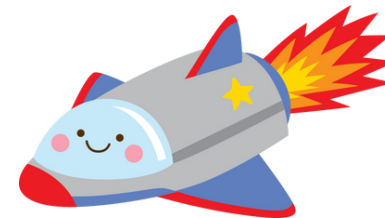

Five, four, three, two, one... Blast off!

# Meet the moon

You can jump very high here!

How high can you jump?

# Twinkle, twinkle...

There are lots of stars in the night sky!

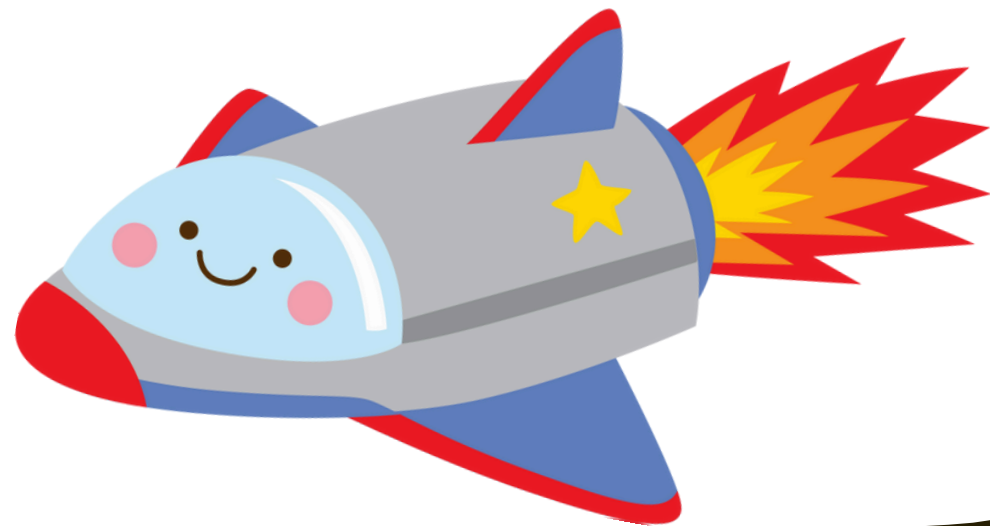

Can you do a star jump?

# Hello, astronaut!

Astronauts fly in rockets to explore space.

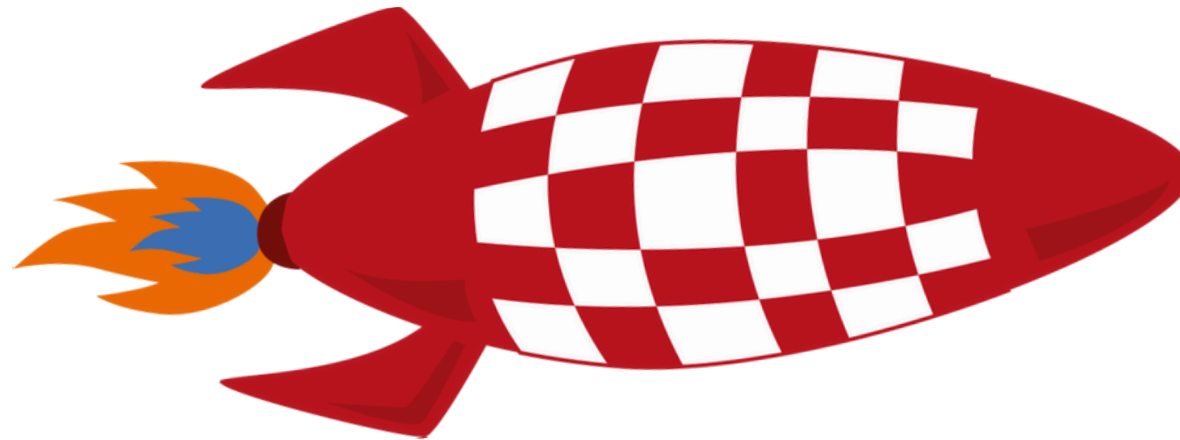

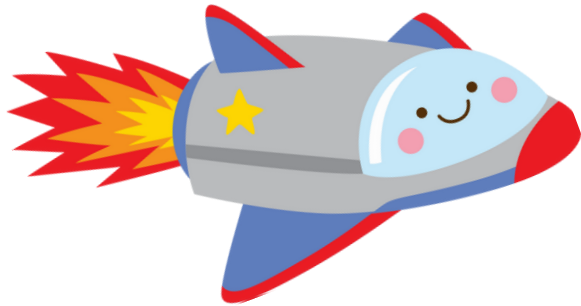

Wave to the astronaut!

# Racing rocket

Rockets have to fly very fast to reach space.

Pretend to be a rocket blasting through space!

# Spinning planet

This planet has rings spinning around it!

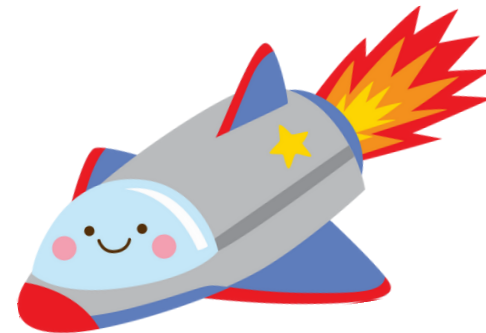

Can you spin around in a circle?

# Icy planet

This planet is made of ice. It's very cold there.

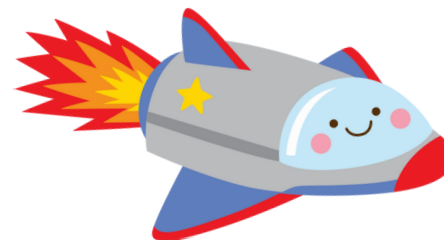

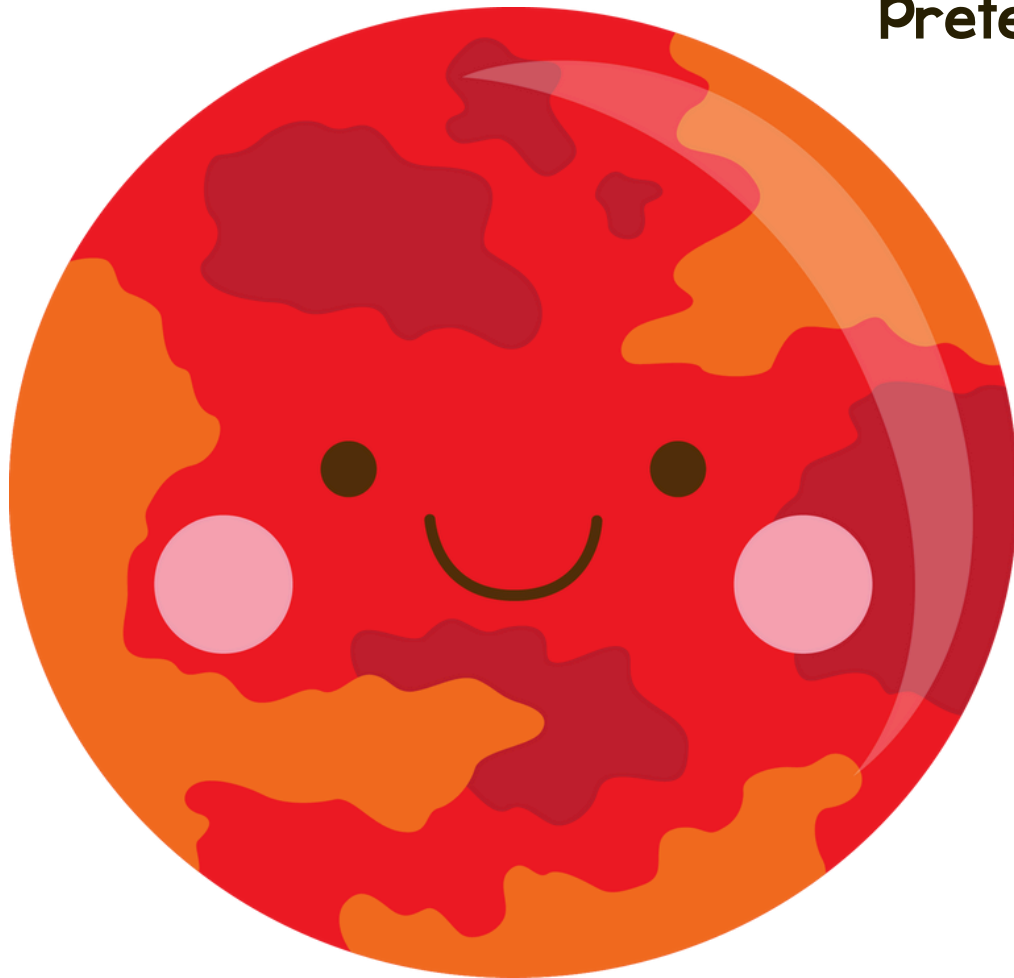

Pretend to be very cold!

# Fiery planet

This planet is very hot.

Pretend to be very hot!

# Back home!

Hurray! You've made it back to Earth.

Well done for completing your space adventure!
